

Little Argument With Myself

Low

I want to believe
I want to believe
I want to believe
I want to believe
Just keep counting the stars
Like someday you'll find out
Just how many there are
And we all can go home
'cause there's nothing as sad
As a man on his back
Counting stars
But, I want to believe
Yes, I want to believe 'cause there's nothing as sad
As a man on his back
Counting stars
