

# Own True Way

## Great Big Sea

It takes a lot to get to the top  
And a little just to fall off quick  
And I think, I've seen you here before  
Sometimes you fly so high  
So fast it makes you sick  
You won the battle and lost the war  
But I don't mind if you say  
Every time you talk to me, every time we talk  
We came, we saw  
We conquered and crumbled  
In our own true way  
We loved, we fought  
We rocked and we tumbled  
In our own true way  
Our own true way  
Well, I believe in brotherhood  
And the good of all mankind  
But I admit it's hard to find  
But, if you wanna talk just come and knock  
It don't matter what the time  
Solitude is no friend of mine  
And I don't mind if you say  
Every time you talk to me, every time we talk  
We came, we saw

We conquered and crumbled  
In our own true way  
We loved, we fought  
We rocked and we tumbled  
In our own true way  
I don't mind  
It's hard to be from a rock in the sea  
Livin' in a big, steel town  
Finding unfamiliar faces all around  
You heard 'em tellin' stupid jokes  
You heard 'em laugh every time you spoke  
But you don't let nobody put you down  
But I don't mind if you say  
Every time you talk to me

Every time you talk to me, every time we talk

We came, we saw

We conquered and crumbled

In our own true way

We loved, we fought

We rocked and we tumbled

In our own true way

In our own true way

I don't mind if you say
