

# Devil's Nightmare

## Oxide & Neutrino

I can be evil, I can be good  
But I don't know if I really should  
Be evil to those jealous  
That want to try and intimidate me Dare you step into my land  
Come imitate me like a foolish man  
Enter your dreams like Freddy Krueger  
Rip out ya brains, the dark intruder Hell raiser another dimension  
Terrorize ya soul, now that's my intention  
Vampire Count Dracula, bite your neck  
Who haha Hunt you down  
I come tear out your heart  
Werewolf I'm coming in dark  
Zombified now mummification, you'll be  
If you mess with my patience I can be evil, I can be good  
But I don't know if I really should  
Be evil to those jealous MC's  
That want to try and intimidate me Dare you step into my land  
Come imitate me like a foolish man  
Enter your dreams like Freddy Krueger  
Rip out ya brains, the dark intruder Hell raiser another dimension  
Terrorize ya soul, now that's my intention  
Vampire Count Dracula, bite your neck  
Who haha Hunt you down  
I come tear out your heart  
Werewolf I'm coming in dark  
Zombified now mummification
