Before We Die

[Devin Townsend Project](#)

Dream city - I don't wanna

Dream city - I never wanted to be told

Dream city - I don't wannaYou're right, you're alrightCome to the Dream city - I don't wanna

Dream city - I never wanted to be told

Dream city - I don't wannaYou're right, you're alrightThough we are young, We've never had a place for us, never had the time

Remember to go slow...but never run away from this

'Cause there is always time!Dream city - I don't wanna

Dream city - I never wanted to be told

Dream city - I don't wannaYou're right, you're alrightYou better start living - I don't wanna

And quit dreaming - I never wanted to be told

Start living - I don't wannaYour life, you're alright (we're alright, come on!)Though we are young, We've never had a place for us, never had the time

Remember to go slow...but never run away from this

'Cause there is always time!Remember to go slow...but never run away from this

'Cause there is always time!To live before we die.

To live before we die.

To live before we die.You shall be always with me

You'll be the light that guided me through

And we may see each other soonThis is not goodbye...
