Everlasting Me

Sugarplum Fairy

She said everything grey will turn out straight
I say I know it's a pray I just want us to be together
You said all the trees will lose their leaves
I just think it's a relief that all the nature finds a way out

Do you want me to be
Like an everlasting me
Like the one I used to be with you
You know I wanted to

But I know everything changes from day to day
Don't be afraid
Don't be afraid

You say I got to sharpen myself up
My fever rises to its top
And the sky starts to scare me
The wind blows any way it will wish to blow
But I don't know which way to go
Can I stay here now forever

Do you want me to see
That the chance I had to be
An everlasting me is gone
You know I wanted to

But I know everything changes from day to day
Don't be afraid
Don't be afraid

Do you want me to scream
Our just live inside this dream
Like an everlasting me should do
You know I wanted to

'Cause I know everything changes from day to day
Don't be afraid
