

Operation: Working Vacation

Sugarland

Gotta get a handle on the situation
(Operation working vacation)
Soul solution for my frustrations
(Operation working vacation)
So I made myself a little reservation
A one way ticket to liberation
Way overdue by my calculations
Operation working vacation
Well, this bottles been working on my concentration
(Operation working vacation)
The more I drink the more the waves keep a waving
(Operation working vacation)
The office keeps calling with complications
A big breakdown in communication
They keep leaving messages, I keep erasing
Operation working vacation
Operation working
You gotta get out sometimes
And let in the big sunshine

So I made a little space for some inspiration
(Operation working vacation)
And I can go back to school post graduation
(Operation working vacation)
Get my degree in intoxication
Gonna redefine higher education
Maybe I'll inspire a whole generation
Operation working vacation
Operation working vacation
You gotta get sometimes
(Operation working vacation)
(Operation working vacation)
And let in the big sunshine
(Operation working vacation)
(Operation working vacation)
Operation working vacation
Operation working vacation
Operation working vacation
Operation working vacation
