

Dark & Long (1st Ruff Id3 A1551 2) [Remastered]

Underworld

Thunder, thunder, lightning ahead, long
Kiss you, kiss you dark & longThunder, thunder, lightning ahead
 Thunder, thunder, lightning
 Thunder thunder, lightning ahead
Now I kiss you dark & longThunder thunder, lightning ahead, long
Kiss you, kiss you dark & long, longMe I'm just a waitress she said
 I went and bought a new head she said
 I look at you I believe in you she said
 Screaming into the eye of the lens
 I want to smash it up, I want to break it down
I want a wall of tears to wash awayThunder, thunder, lightning ahead
 Thunder, thunder, lightning
 Thunder, thunder, lightning ahead
Now I kiss you dark & longFilled with tainted girls and motel frills
What a laugh, you was done up there mateThunder, thunder, lightning ahead
 I could kiss you dark & long
 Thunder, thunder, lightning ahead
Now I kiss you dark & longShout your love, the stars are black
 The church is sweet, my skin is hot
 Thunder, thunder lightning ahead
Now I kiss you dark & long, shout your love
