

# CHILDREN OF THE NIGHT

## Mess Anger

We are the children of the night  
We are the children  
We are the children of the night  
We are the childrenAs daylight fades we celebrate  
The end is near, your end is here  
The night it brings us our fate  
Knee deep in mud, we want your bloodThis isn't love, this is war  
This is the night we said we would be fighting for  
This isn't love, this is war  
This is the night we swore that we would call our ownWe are the children of the night  
We are the children  
We are the children of the night  
We are the childrenThe fire burns into the sky  
The sun goes down, your end is here  
Lighting eyes in the night  
Be one of us, be one of usThis isn't love, this is war  
This is the night we said we would be fighting for  
This isn't love this is war  
This is the night we swore that we would call our ownWe are the children of the night  
We are the children  
We are the children of the night  
We are the childrenWe are the children of the night  
We are the children  
We are the children of the night  
We are the childrenWe are the children of the night  
We are the children  
We are the children of the night  
We are the childrenWe are the children of the night  
We are the children  
We are the children of the night  
We are the childrenThis isn't love, this is war  
This is the night we said we would be fighting forWe are the children of the night  
We are the children  
We are the children of the night  
We are the childrenWe are the children of the night  
We are the children  
We are the children of the night  
We are the childrenWe are the children of the night  
We are the children

We are the children of the night  
We are the childrenWe are the children of the night  
We are the children  
We are the children of the night  
We are the children
