

A Shadow Falls On Me

Gary Numan

Every time I feel that I understand
A shadow falls on me, takes it away
Every time I try to walk away
A shadow falls on me, tells me to stay When will it end?
When will it end? Every time I dream you will come home
A shadow falls on me, wake up alone
Every time I scream for someone to blame
A shadow falls on me, whispers my name When will it end?
When will it end? Every time I breathe locked in this room
A shadow falls on me, never too soon
Every time I die and lay by your side
A shadow falls on me, keeps me alive When will it end?
When will it end?
When will it end?
When will it end?
When will it end?
