

# A Gift For Fiction

## Fear Before the March of Flames

OH MY GOD

What have we learned?

OH MY GOD

We're doomed from the startIt's time to admit we're wrong and move on

Kick our habits, self improvement

Is anyone getting nervous?We should all be afraid to dieI don't care as long as we, as long as we get there

Get thereFought, you fought and you got what you want out of me

Caught, don't get caught, you'll be fucked if you know what I meanAre you scared you can't tell me what your  
life's about?

Thought provoking, it's all we need.

It's all we need.THE FEAR OF GOD IN US

IN ALL OF US
