

# Foetal Carnage

## Gorefest

Pregnant for nine weeks  
By rape or promiscuity  
Life is growing inside  
Although it is not wanted  
Life becomes hell  
Days are passing slowly  
Suicide will be sure  
If abortion can't be practised Tissue is carved and bleeds  
The foetus is now executed  
It's vacuumed from the womb  
Birth will not be given Tissue is carved and bleeds  
The foetus is now executed  
It's vacuumed from the womb  
Birth will not be given What's the right of the unborn child  
When it will destroy its mother's life?  
None!!! Friends are no help  
Their opinion is formed by others  
Their religion says you're a whore  
Your son is a condemned bastard Tissue is carved and bleeds  
The foetus is now executed  
It's vacuumed from the womb  
Birth will not be given
