Fly Forever

Valve

From the vision of the pain
Troygt the corners of the wood
Times you lived your lifeBleddin from it's vains of nails
Lived the pain that never ends
The tree of deathSince you were from the dirth
And raised too high
Of what life is worthWhen you ease your brain
See your dreams over
Fence your eager to fly foreverReaching trough the gun
Role the trigger run
That's no reason to fly
Forever flyFew minutes of fallin drops
To dry the streams of your blood
You leave your godAs the mountain on which I close my eyes
To embrace the future of my last[Chorus]
