

# Super Slow

## San Cisco

If you wanna go  
Come on out baby oh  
Come on let me know  
You take it super slow  
Baby super slow  
You and I are crazy though  
Come on let me know  
You take it super slow Its only natural for us to drift apart  
And I know you didn't feel this way at the start  
Come on girl, come on boy  
Were swimming in denial  
And we've been feeling this way for a while  
Chasing our tails every day the same  
If you were real with me then I would stay We were kids its hard to grow  
Adult things are all you know  
Hold me tight, don't let go  
I think that we can make it  
Baby we can make it  
If you take it super slow Give it another go  
Come on now baby oh  
Come on let me know  
You take it super slow  
Baby super slow  
You and I are crazy though  
Come on let me know  
You take it super slow It doesn't feel right when I lie here next to you  
Lying always hurts the most when its half true  
How do you know  
I don't know when to let go  
I don't think I'm ready yet  
Can we just take it slow We were kids its hard to grow  
Adult things are all you know  
Hold me tight, don't let go  
I think that we can make it If you wanna go baby come on let me know  
We can take it super slow if you'd only let me know  
We can take it slow  
Slow  
Come on now

You and I are crazy though
