Two Planets

Bat For Lashes

Show me moonlight on the sunrise
I've seen so many planets dancing
I've seen too many people hiding
Show me sunset and I won't forget
That I am one of two planets dancing
I am part of two planets dancing
Shallow men, sign your name on my sun
The son of Solomon died in the battleground
The son of Solomon died in love's battleground
I am far shattered by these sinning times
For all your suffering by night
Oh, [Incomprehensible]
Life is so much dark and light
Day cannot exist without a night
And you should not slip away from me
I have a heart that's full of light to be shared
On this night, feel my hands, feel my love
For the sun and the stars of my mother and my sisters
I know where the foam is changing
I know that the stars will follow on from me
