

# We the Helpless

## Extreme Noise Terror

Comfortably placed within your four walls of tranquility  
Braindead and oblivious to the carnage of life  
You are the carcass of society  
Void of thought intelligent reasoning and care  
You are the reason of millions of animals are slaughter  
People starve  
Woman are raped  
Children are sexually abused  
People are beaten in South Africa  
This is no newspaper headline this is reality  
All because you are too scared to show emotion  
You self righteous shit... show you fucking care  
Stand up, they are your problem too  
Together we can bring about a change
