Pushin'

Duncan Powell

[Chorus:]
You just keep on pushing
You won't let it get away
You've got my mind thinking
We won't see another day
If you keep on reaching and stressing me
You might just push me away, hey...Girl, you've always got some drama going on
Somebody told me that they saw you in an ex-man's arms
Kissing and laughing, passions splashing Alizae
And you caught an attitude when I asked you what you had to say
Don't get it twisted, 'cause I catch it on the low
But you got me open like I've never been before
You come home late at night, I'm chilling with my friends
Then comes an argument
You got me thinking about leaving you again[Chorus:]Nothing is easy when it comes to loving you
I know you're not feeling me the way that you used to
And now that I floss and toss an ice all over my wrist
You want to run back to me
But it's so hard to forget
I took you shopping, tricking your Gs up at the mall
Whenever I page you, lady, you don't return my calls
I don't want to playa hate, but, girl, it's not a game
I can't take you serious so I gotta get away[Chorus:]Girl, you've been mocking seriously from the door
And I should let you know
This right here ain't yours no more
So stop blowing up my pager
Coming, acting like a stranger
Calling me, pushing me away, yeah...[Chorus:]
