

This Is All I Came to Do

Dinosaur Jr.

Take my problems, take me any place
Take my, my, my mind as well
I've been trying like I've nothing left
It's down to me who's in control And it bothers me I'm [Incomprehensible]
And I need it more and I have tried This is all I came to do
This is all I came to do, you know, do, you know
This is all I came to do
This is all I came to do, you know, do, you know I need much more than I had before
And give me my, my mind as well
I've been waiting here, got nothing done
I have been lonely, you can tell And I wanted to everyday
And I wanted her to give away
I'm afraid I'll get it This is all I came to do
This is all I came to do, you know, do, you know
This is all I came to do
This is all I came to do, you know, do, you know Hate to say it but you told me so
I tricked my, my mind, it's true
And I thought all about all I could be
Please just tell me what to do now, do now This is all I came to do
This is all I came to do, you know, do, you know
This is all I came to do
This is all I came to do, you know, do, you know This is all I came to do
This is all I came to do, you know, do, you know
