

Rock You Up

The Romantics

You know you look a little lonely
Well, I can keep you company
You wanna make it with somebody
Baby, won't you make it with me? Wanna have a good time, it's alright
Baby whatcha doing later on tonight
I wanna rock you up, rock you up
Rock you up, rock you up You wanna do a little dancing
Well, music never let you down
But if you're ready for romancing
Honey, better hang around Wanna have a good time, it's alright
Baby whatcha doing later on tonight
I wanna rock you up, rock you up
Rock you up, rock you up You know you look a little lonely
Well, I can keep you company
When I see you move your body
Don't you know you put me in heat Wanna have a good time, it's alright
Baby whatcha doing later on tonight
I wanna rock you up, rock you up
Rock you up, rock you up
