Innocent

TimsDepartment

We Are Innocent

open your ears focus on this sound
it feels like there is no one around
check the east i go to check the west
let's start the fucking mess

we are innocent
we are innocent
we are innocent
i don't know who made this mess

we built this house
and then we burned it down
it was so real
you and me

what? we are innocent
we are innocent
we are innocent
i don't know who made this mess
