

Strangest Places

[Abra Moore](#)

To one thing I never can get
Can't put my fingers on it always forgetting my lines
One thing I never can get
Displacing logic in the memory banks of my mind I find myself in the strangest places
My head's got a mind, said a mind of it's own
I find myself in the strangest places
I wake up I've been sleeping in somebody's shoes, oh This is the last of all of my songs
Got to get, to get you in the back of the room
You're one thing I never can get
Can't put my fingers on it always forgetting my lines I find myself in the strangest places
My head's got a mind, said a mind of it's own
I find myself in the strangest places
I wake up I've been sleeping in somebody's room Yeah, yeah I find myself in the strangest places
My head's got a mind, said a mind of it's own
I find myself in the strangest places
I wake up I've been sleeping in somebody's shoes I find myself in the strangest places
My head's got a mind, said a mind of it's own
I find myself in the strangest places
I wake up I've been sleeping in somebody's room I find myself in the strangest places
My head's got a mind, said a mind of it's own
I find myself in the strangest places
I wake up I've been sleeping in somebody's shoes
