

# The Storm

J. Cole

If loving you is all that I have to do  
I don't want to do anything else  
If loving you is all that I have to do  
I don't want to do anything else Listen baby Every night and day  
I dream of another way  
to tell you something good  
I don't think that I'm understood  
You walk away and I frown  
With my head hung far down  
You tell me what is wrong  
You just wanna be loved all night long baby If loving you is all that I have to do  
I don't want to do anything else  
If loving you is all that I have to do  
I don't want to do anything else You told me a thousand times  
That you would be mine, all mine  
I do everything for you  
But in your smile, I still can't find  
And now you tell me this  
This is something that I can miss  
And all you wanna do is to love me for me  
And I'll love you for you If loving you is all that I have to do  
I don't want to do anything else  
If loving you is all that I have to do  
I don't want to do anything else Now that I know I'm gonna make love to you  
So lady open up your heart  
And let me in where I belong If loving you is all that I have to do  
Then it won't be wrong baby  
Cause we belong together baby Together we will be as one  
Just me and you, you you you Will you love me  
I will love you  
Will you please me  
I will please you  
Girl, don't leave me  
I won't leave you  
Let's make it easy  
I'll make it easy Will you love me  
I will love you  
Will you please me  
I will please you, you, you

Girl, don't leave me  
I won't leave you  
Let's make it easy They can take my possessions  
No, no, no, no, They can never take your love away from me Oh, see now listen, with every breath I breath  
And every beat in my heart  
I know that no one, I know that no one  
Can tear us apart  
'Cause I love you baby  
I love you too  
And I need you baby  
I need you to baby Stay with me more than just a day  
And you know, you know, you know I love you  
Oh yes  
Oh you make me feel so good baby
