

Follow the Leaders

Killing Joke

Come inside boy, they call this fun
(Music to please the adolescent)
Taking the easy way out again
Part of the process, same old story Follow the leaders
Follow the leaders
(Look at the leaders) Follow the leaders
Follow the leaders
(Look at the leaders) You just condone all that you mean
Play time doesn't last forever
Shouting about it taking the bait
Walking again in the same direction Follow the leaders
Follow the leaders
(Look at the leaders) Follow the leaders
Follow the leaders
(Look at the leaders) Time moves on and then you notice
The ground starts to tremble beneath your feet
Man killed man and blood was shed
And the gasps of relief at human nature, like Follow the leaders
Follow the leaders
(Look at the leaders) Follow the leaders
(Look at the leaders)
Follow the leaders
(Look at the leaders) Follow the leaders
(Look at the leaders)
Follow the leaders
(Look at the leaders) Follow the leaders
(Look at the leaders)
Follow the leaders
(Look at the leaders)
