

From Hide and Seek to Heartache

Field Music

The rush we used to feel
I never recognized, and should I have?
But sitting at this desk, I've grown serious
I said we used to see So many people, every day
The games we used to play
From Hide and Seek to Heartache
How am I to say, 'it meant nothing, and nothing was real'? We may have all been young
But your name was there on the tip of my tongue
I said we used to see
So many people, every day Games we used to play
From Hide and Seek to Heartache
I said we used to see
So many people, every day
