

Something In Me

Katelyn Tarver

At the end of my street
That's where we all meet
Talk about nothin nowhere to go
You're into that scene
But inside I could scream
It's a desert where nothin can grow
I would stay here if I could
But I know it would do no good

Maybe someday you will understandSomething in me wants to reach with both hands

Go over the edge and see where I land

Something in me wants to know what's out there

It's something that I've gotta do

It's not you it's something in meYou're bathed in the light

Each night after night

Watching your life pass you by

I know you had your dreams

But now it just seems

You've settled for less why should I

I know you're scared that I'll get hurt

But don't you think it's so much worse

To give it up before you even trySomething in me wants to reach with both hands

Go over the edge and see where I land

Something in me wants to know what's out there

It's something that I've gotta do

It's not you it's something in meIf I listen to my voice

It leaves me no choice

I would stay here if I could

But I know it would do no good

Maybe someday you will understandSomething in me wants to reach with both hands

Go over the edge and see where I land

Something in me wants to know what's out there

It's something that I've gotta do

It's not you it's something in me
