Homage

Koushik

I'll drown you in kisses
I know I miss so many magic memories
When I'm away from you I miss your touch, I miss your voice
I miss the way we unlock, the secrets through each other
There's only you I could love forever
(Chorus)
That's why I'm so lonely in a crowd
And all I think about is coming home to you
It's pother stuff and dreams, how we hunger for our time

I could never get enough of your sweet love
I know I miss so many magical moment
When I'm away from you I miss your touch, I miss your voice
I miss the way we unlock, the secrets through each other
There's only you I could love forever
[Chorus]I'll drown you in kisses
