Gotta Keep Moving

MC5

Teachers, parents and politicians
They ridicule my wild ambitions
They say, "Settle down son, live decently
Or you'll rot in jail before your twenty-three"They don't know their stuck in the past
Can't stop me now 'cause I'm movin' too fastPresidents, priests and old ladies too
They'll swear on the Bible, what's best for you
Atom bombs, Vietnam, missiles on the moon
And they wonder why their kids are shootin' drugs so soonYoung men fight for democracy
And sacrificed for mediocrityI can't stay in one place for too long a time
I get stone bored, I go outta my mind
I'm here and I'm there, don't you know I'm free?
Gotta keep movin' baby, you and me, heyI can't stay in one place for too long a time
I get stone bored, I go outta my mind
I'm here and I'm there, don't you know I'm free?
Gotta keep movin' baby, you and mePeople wakin' up but they've just begun
To realize what needs to be done
As for me I keep movin' onThe future's now, yesterday is gone
I never let nobody tell me what to do
No matter what I'm gonna see it through[Incomprehensible]
