

Above My Ground

Landlady

I wish that you were still around
I wish that you were still around me now
I didn't know I needed you always then
But I need you always now I wish that you were still around
I wish that you were still around me so
Whenever I feel alone
I never really feel alone
Alone alone I wish that you were still around
I wish that you were still above my ground
I didn't know I needed you always then
But I need you always now
Always And I need you always now
Always always
(X11)
