

# Down About It

## Smudge

Gotta own up on my own somehow  
Toss the beginning and try to live it down  
'N work my way out  
I been so down about it

It gets the same every time I shy  
Away from the blame and I stand my time  
You still wonder why  
I get so down about it

She's gonna give me all the time I need  
To finish it  
And if I can't I'll sleep  
Over

And out like a light when it's not plugged in  
Fading around if it starts again  
You just don't get it when  
I get so down about it

I drop you a hint so I hope you don't catch  
You fumble your keys and I throw the latch  
You're still worried that  
I been so down about it

She's gonna give me all the time I need  
To finish it  
And if I can't I'll sleep  
Over

Out of it so I'd hope she'd be there  
Talk to her as we climb the stairs  
And I told her

Don't you know, I get so down about it  
Don't you know, I get so down about it
