We Are One

12 Stones

We walk alone in the unknown
We live to win another victory
We are the young dying sons
We live to change the face of historySo be afraid, it's the price we pay
The only easy day was yesterday
So hear our voice
We have a choice, it's time to face itWe are one
We are one
We are one
We will stand togetherNumber one
Number one
The chosen onesWe are one
We are one
We will fight forever
We are one and we won't tireWe are the bold united souls
We live to win another victory
Our sacred scars show who we are
And tell the story of our memoriesDon't be afraid, it's the price we pay
The only easy day was yesterday
So hear our voice
We have a choice, it's time to face itWe are one
We are one
We are one
We will stand togetherNumber one
Number one
The chosen onesWe are one
We are one
We will fight forever
We are one and we won't tireWe walk alone in the unknown
We live to win another victory
Our sacred scars
Show who we are, it's time to face itSo be afraid, it's the price we pay
The only easy day was yesterday
So hear our voice
We have a choice, it's time to face itWe are one
We are one
We are one
We will stand togetherNumber one
Number one

The chosen onesWe are one
We are one
We will fight forever
We are one and we won't tire
