

# We Are One

## 12 Stones

We walk alone in the unknown  
We live to win another victory  
We are the young dying sons  
We live to change the face of history So be afraid, it's the price we pay  
The only easy day was yesterday  
So hear our voice  
We have a choice, it's time to face it We are one  
We are one  
We are one  
We will stand together Number one  
Number one  
The chosen ones We are one  
We are one  
We will fight forever  
We are one and we won't tire We are the bold united souls  
We live to win another victory  
Our sacred scars show who we are  
And tell the story of our memories Don't be afraid, it's the price we pay  
The only easy day was yesterday  
So hear our voice  
We have a choice, it's time to face it We are one  
We are one  
We are one  
We will stand together Number one  
Number one  
The chosen ones We are one  
We are one  
We will fight forever  
We are one and we won't tire We walk alone in the unknown  
We live to win another victory  
Our sacred scars  
Show who we are, it's time to face it So be afraid, it's the price we pay  
The only easy day was yesterday  
So hear our voice  
We have a choice, it's time to face it We are one  
We are one  
We are one  
We will stand together Number one  
Number one

The chosen ones We are one  
We are one  
We will fight forever  
We are one and we won't tire
