Till It's Over

Memorial

I said it once
I said it time and time again
Try to be something you've not
Now its gone
Nothings gonna be teh same
Got exactly what you want
I'm not gonna bury you
Compare you
Its not fair to you
Now that i see you walkin out that door
Try to understand
It aint over till its over
I wont be the one to take the blame
And always drag you down
It aint over till its over
Held you up
Put my feelings in a box
All the time you thought of him
And all i hear
Is the ticking of the clock
Its up to me to sink or swim
I'm not gonna bury you
Compare you
Its not fair to you

Now that i see you walkin out that door
Try to understand
It aint over till its over
I wont be the one to take the blame
And always drag you down
It aint over till its over
I'm diggin in
Under your skin I've got you figure out
I'm not the one whos gone insane
Just give me time
Its not a line just try to understand
Dont count me out
Dont walk away
I said it once

Said it time and time again
Got exactly what you want
Now that i see you walkin out that door
Try to understand
It aint over till its over
I wont be the one to take the blame
And always drag you down
It aint over till its over
Till its over
Till its over
