

# Bolt

## The Swashbuckling Swanton

Well, she talks like a bullet  
And she looks like a goddess  
Says she's a traveler  
And she knows where she's going Dresses like a model  
Talks like a liar  
She sounds like a bimbo  
But she thinks like a scholar She's got me, she's lost me  
She's got me on my knees in awe  
She took me, she shook me  
And now I want her all the more Well, I'm talking straight to her  
And I know she's not listening  
Why the hell do I find her  
So damn impressive She has a bad temper  
She likes to have control  
The fact I don't understand her  
Fascinates me all the more She's got me, she's lost me  
She's got me on my knees in awe  
She took me, she shook me  
And now I want her all the more She's got me, she's lost me  
She's got me on my knees in awe  
She took me, she shook me  
And now I want her all the more
