Make Me a Believer

Crossfade

Will it make me feel even
Will it make me feel right
Will it solve all my problems
Solve my life

Make me a believer
Make me a believer

Lost
Something is lost
Alone
Dying alone
Make me a believer

Because it makes me feel even
Because it makes me feel right
Because it solves all my problems
Because it solves my life

Lost
Someone is lost
Alone
Dying alone
Make me a believer

It's in my blood
It's underneath my skin
Beneath my skin
It's underneath my skin

Your in my blood
Your underneath my skin
Beneath my skin
It's underneath my skin

What will you make me
What will you make me
What will you make me
What will you make me
What will you make me

What will you make me
What will you make me
What will you make me

Does it make a difference who I am
When I'm alone
Does it make a difference who I am
When I'm alone

Make me a believer
Make me believe
Make me a believer
Make me believe
