

# Going Wrong (feat. DJ Shah & Chris Jones)

Armin van Buuren

Yeah, I keep dreaming  
That I have it all  
I'm still craving  
To have you by my side  
I know our love is fading  
But soon it will shine And I can't see today  
And I can't see tomorrow  
You're burning out my head  
And in my brain it's going wrong And I will live today  
And I will live tomorrow  
No matter what is said or done Even if it's going wrong  
Even if it's going wrong  
Even if it's going wrong  
You're burning out my head Even if it's going wrong  
Even if it's going wrong  
You're burning out my head I keep searching  
But soon we will shine And I can't see today  
And I can't see tomorrow  
You're burning out my head  
And in my brain it's going wrong And I will live today  
And I will live tomorrow  
No matter what is said or done Even if it's going wrong  
Even if it's going wrong  
Even if it's going wrong  
You're burning out my head And I can't see today  
And I can't see tomorrow  
You're burning out my head
