For What It's Worth (feat. Angus & Julia Stone)

Kygo

[Verse 1]
I tell you boy I pay my way and go
I ain't the best at times untold
I'm adult when I'm on the drink
I question if I break up everything
And not even all the world's diamond rings
Put the girl to sleep to dream
We wanted everything when we were young[Pre-Chorus]
We were kids, trying to make it up
As we call home
As we call home
We were kids, trying to make it up
As we call home
As we call home[Chorus]
For what it's worth
I was only trying to wake you up
For what it's worth
I was only trying to wake you up
(trying to wake it up)
For what it's worth
I was only trying to wake you up
For what it's worth I was only trying[Pre-Chorus]
We were kids, trying to make it up
As we call home
As we call home
We were kids, trying to make it up
As we call home
As we call home[Verse 2]
We were just kids making it up
We got blind even when we fucked it up
But what they never told us, it was wrong
Nobody ever seemed to care, it was gone[Chorus]
For what it's worth
I was only trying to wake you up
For what it's worth
I was only trying to wake you up
(trying to wake it up)
For what it's worth
I was only trying to wake you up

For what it's worth I was only trying
