Tempo Slow

R. Kelly

What's up baby?
I know what you're thinking
What did I call you over here for?
I wanna take you somewhereTempo slow, lights down low
Let me take you to a place
Where only love grooves goStep into my territory and let the vibes begin
Don't be afraid, just let this love groove in
Let the passion lead you to a place beyond
Exploring my bedroom, having freaky funTempo slow, lights down low
Let me take you to a place
Where only love grooves goWhere all the players go
And all the gangstas goTempo slow, lights down low
Let me take you to a place
Where only love grooves goRules they are so simple, so very simple
As our bodies connect and those juices start to flow
Makin' sweet love till the morning light
And satisfying love's appetiteTempo slow, lights down low
Let me take you to a place
Where only love grooves goWhere all the players go
And all the gangstas goTempo slow, lights down low
Let me take you to a place
Where only love grooves goOh baby, ooh, tell daddy what it is you want
Come on and unravel those little secrets unknown
Time to taste what love has in store for me
So let's take a sip of this love groove chemistryTempo slow, lights down low
Let me take you to a place
Where only love grooves goWhere all the players go
And all the gangstas goTempo slow, lights down low
Let me take you to a place
Where only love grooves goWhere all the players go
And all the gangstas goTempo slow, lights down low
Let me take you to a place
Where only love grooves goWhere all the players go
And all the gangstas go
