Angel Like

Boondox

She was new in town.
She was a treasure that I found.
She liked to swim at night.
And she was angel like.
Who the fuck you? Who the fuck you? Who the fuck you? Who the fuck you?
When she swam under the moonlight.
Who the fuck you dissin bitch remember me I was there for you?
Who the fuck you dissin bitch remember me I was there for you?
She was angel like.
Who the fuck you? Who the fuck you? Who the fuck you? Who the fuck you?
When she swam under the moonlight.
Who the fuck you dissin bitch remember me I was there for you?
Who the fuck you dissin bitch remember me I was there for you?
She grew popular.
There was no stop'n her.
She started losing sight.
And she forgot about.
Who the fuck you? Who the fuck you? Who the fuck you? Who the fuck you?
Me and her in the river at night.
Who the fuck you dissin bitch remember me I was there for you?
Who the fuck you dissin bitch remember me I was there for you?
The girl forgot about.
Who the fuck you? Who the fuck you? Who the fuck you? Who the fuck you?

Me and her in the river at night.
Who the fuck you dissin bitch remember me I was there for you?
Who the fuck you dissin bitch remember me I was there for you?
She was merciless.
Her love was posioness.
I had to take her life.
And now she's angel like.
Who the fuck you? Who the fuck you? Who the fuck you? Who the fuck you?
Float'n dead under the moonlight.
Who the fuck you dissin bitch remember me I was there for you?
Who the fuck you dissin bitch remember me I was there for you?
She's so angel like.
Who the fuck you? Who the fuck you? Who the fuck you? Who the fuck you?
Her skin all pale and white.
Who the fuck you dissin bitch remember me I was there for you?

Who the fuck you dissin bitch remember me I was there for you?
The girl is angel like.
Who the fuck you? Who the fuck you? Who the fuck you? Who the fuck you?
Me and her in the river at night.
Who the fuck you dissin bitch remember me I was there for you?
Who the fuck you dissin bitch remember me I was there for you?
And everything is alright.
And everything is alright.
And everything is alright
