One To One

Syreeta Wright

Dum, da da dum
Da da dum dum, dum da dum
Da da da dum, da da dum
Are you listenin'?
What are you doin' tonight?
Are you alone?
Thoughts of you come over my mind
I miss you to the bone
I'd like to come on over
Been in exile and discover, girl
We need to have a one to one
Me an you, we really do
We should have a one to one
I know that I say
We've got so much things to talk about
We must get together to sort it out
If in your mind you have some doubts
Come and let me show you what I'm about
We need to have a one to one
Oh girl, no denyin'
We should have a one to one
And I want you know that
I would not mislead you like those other guys do
I wouldn't use you, count on me
My love will always be true
All I ask of you, woman
Is to be pure and true, just you be pure and true
If you can do that woman
Then I, I say yeah
We should have a one to one
Oh yeah, we really do, girl
We should have a one to one
Oh, right then talk to me
What are you doing tonight?
Honey, are you alone?
The thought of you come over my mind
I miss you to the bone
I'd like to come on over
Been in exile and discover, girl

We should have a one to one
Me and you, we really do
We need to have a one to one
And I tell you once more
So much things to talk about
Come, come, come, let us get together to sort it out
If in your mind you have some doubt
Then woman, let me show you what I'm about
We should have a one to one
Me and you, take my hand
We need to have a one to one
Put your faith in I 'cause
I wouldn't mislead you like those other guys do
I wouldn't use you, count on me
This love will always be true, yeah
We should have a one to one
Oh, lovely woman, I say, yeah
We need to have a one to one
Oh, right then, then
Da da dum dum, dum da dum
Dum da dum, da da dum
Da dum dum, dum da dum, hey
So much things to talk about
Come, come, let's get together, sort it out
If in your mind you have some doubt
Come, come, come and let me show you
What I'm about, yeah, yah
We should have a one to one
Me and you, we really do
We need to have a one to one
Call me anytime
What are you doin' tonight?
