SUMMER DAYS

Do As Infinity

Summer days, I can't stand the summer days
Frozen cocktails and night fireworks
What's so great about them anyway?
Summer day, let it be some other day
Seaside motels and sex on the beach,
Don't be thinking I went all the way
I hate summer days

Rushing down the traffic to the beach
That's jammed for blocks and blocks
They ain't getting nowhere
Still miles and miles left to go
Strutting down the street, the girls
They try to impress their boyfriend to be
I give up and don't try
Every day is a bad hair day

Guys, they come up with lame pick-up lines
Desperate to just get laid
Damn, give me a freaking break!

Summer days, I can't stand the summer days
Frozen cocktails and night fireworks
What's so great about them anyway?
Summer day, let it be some other day
Seaside motels and sex on the beach,
Don't be thinking I went all the way
Goddamn summer days

Kate was the one who said that life was
Meant to be enjoyed
Stop crinkling your face
Everything will turn out okay
Serving from table to table, up and down the aisle
Had on a face I'd never seen
Whatever happened to her?
Who has stolen your smiles away?

Who said that summer can brighten the mood of fate?
Nothing is going to change

Damn, give me a freaking break!

Summer days, I can't stand the summer days
Frozen cocktails and night fireworks
What's so great about them anyway?
Summer day, let it be some other day
Seaside motels and sex on the beach
Don't be thinking I went all the way
Who needs summer days

Summer days, they have never been the same
Once you left and were out of my sight
Leaving no trace behind
Summer
