

Apocalypse 2012

Angels of Babylon

Many stairs I climb
To the place that is shared by the Gods
To sacrifice and appease them with our bloodPre-
Charting the stars of the night
Determined to leave Earth behindWe belong, we belong
We belong the Sun
We belong, we belong
We belong the Sun
Say your last prayer
For we've come to the end of our Age
Till we fly, till we fly
Free from it all, take my handTemples that reach the sky
Touching the face of the GodsWe belong, we belong
We belong the Sun
We belong, we belong
We belong the SunCharting the stars of the night
Determined to leave Earth behind
We belong, we belong
We belong the Sun
We belong, we belong
We belong the Sun
