Remember

Groove Armada

What you
What you see
In your time to me
And you know
That you are free
And when you can be
Don't think you only
What you see for remember
What you see
Remember what you see
What you
Remember what you see
What you
In your time to me

And you know
That you are free
And when you can be
Don't think you only
What you see for remember
What you see for remember
What you see for remember
What you see for remember
What you see for remember
Remember what you see
Remember what you see
Remember what you see
Remember what you see
Remember what you see
