Only One in Color

Trapt

I've been searching all my life
I used to be so color blind
You opened up my eyesDo you want to share your dreams
See a different side of me
You're everything I needI like it when you think out loud
Things you say when you know
There is no one else aroundI can dig my own graves now
The way you smile every time I try to crawl my way outThere is no one like you
In a world of black and white
You are the only one in color
There is no one like you
Into mystery I slide
I wish you'd keep it all uncoveredYou are the only one in colorYou know when I set that mood
You can light up any room
Just by the way you moveYou're the only one that understands
What I've given you, you've given back
Come on and take my handI like it when you think out loud
Things you say when you know
There is noone else aroundI can dig my own graves now
The way you smile every time I try to crawl my way outThere is noone like you
In a world of black and white
You are the only one in colour
There is no one like you
Into mystery I slide
I wish you'd keep it all uncoveredYou are the only one in colorYou turned an old world upside down
We have calmed what I have so tightly wound
And so full of doubtI never tell you that two's a crowd
I'll know I can't get through without
Ever needing you aroundThere is noone like you
In a world of black and white
You are the only one in colourThere is no one like you
Into mystery I slide
I wish you'd keep it all uncoveredThere is noone like you
In a world of black and white
You are the only one in colourThere is no one like you
Into mystery I slide
I wish you'd keep it all uncoveredYou are the only one in color
