

# Addicted

Nick Carter

From the first hit  
Saw my world come crashing down  
I'll never forget  
How you just blew my mind  
My head is spinning  
Feel my heart 'bout to explode  
I'm overload from head to toe  
Around and round and round we go  
So what I'm addicted  
And now I can't live without your love  
Maybe it's crazy  
But I just can't get enough  
I can't fight the feeling  
I'd rather let you take me away  
I don't wanna break these chains  
I'd rather feel the pain  
You're such a good bad drug  
The one I can't give up  
You give me such a rush  
The one I'm thinking of  
You're such a good bad drug  
Yeah, I'm struck out  
No, I can't see straight  
All you give I'll take  
You got me now  
Just coming back for more  
I'm not coming down  
Too much, too late  
And overload from head to toe  
Around and round we go  
So what I'm addicted  
And now I can't live without your love  
Maybe it's crazy  
But I just can't get enough  
  
I can't fight the feeling  
I'd rather let you take me away  
I don't wanna break these chains  
I'd rather feel the pain

You're such a good bad drug  
The one I can't give up  
You give me such a rush  
The one I'm thinking of  
You're such a good bad drug  
I'm so hooked, I took your pill  
I get stuck, I get my fill  
There's no hope praying  
You will get home, love  
I need no therapy  
Unless you're not around  
Hooked up your chemistry  
I'm never coming down  
You gotta hold me  
I want more  
Gimme more  
I need my fix  
So what I'm addicted  
And now I can't live without your love  
Maybe it's crazy  
But I just can't get enough  
I can't fight the feeling  
I'd rather let you take me away  
I don't wanna break these chains  
I'd rather feel the pain  
You're such a good bad drug  
The one I can't give up  
You give me such a rush  
The one I'm thinking of  
You're such a good bad drug
