Love Fantasy

Sean Mccabe

I once was told, that love was just a game
Now I need to know baby, if you feel the same way (tell me)
It really drives me crazy, I need to know if maybe
You and I could be as one
And we could be asss one
And we could stay together, 'till forever
I'd never thought that I'd find a girl, that does her thing the way you do
And I never thought you'd be the on, after all that we've benn through
Stay right here, have no fear
Oh can't you see that I'm sincere?
Just take my hand and follow me
To our love fantasy
[CHORUS]:
A love like this will last forever
Bring us joy and cause us pleasure
Tell me what it is you're looking for
Tell me if it's me you can adore
No need for hesitation
All I want is reciprocation
To what I have right here in store for you
Yes you can make this fantasy come true

I used to think, that love was just a passing phase
And no one beofe you, ever made me feel this way (tell me)
What it is I must do, can't ya feel me in you?
Come on let's climb this peak of love
And baby stay together, 'till forever
I'd never thought that I would find a girl, that does her thing the way you do
And I never thought you'd be the one, after all that we've been through
Stay right here, have no fear
Oh can't you see that I'm sincere?
Just take my hand and follow me
To a love fantasy
CHORUS
So don't me alone
Come fly with me, into my fantasy
You and I will be, forever free
Eternally
In a love fantasy

CHORUS
