

Scared of Falling In Love

[Tonanni](#)

If you dont know, why I hide from you
Think you should know, baby, Ill tell you this
I need some time to find my place in your heartI cant go on pretending I dont care
It seems so wrong faking things that I feel
All I can do is being who I truly amI dont wanna say but I do wanna feel
Deep inside I know our love is real
Crazy I must be, but time will erase my fear to cryMy heart tells me to believe
But I am, scared of falling in love
Maybe, maybe, your love will set me free
But I am scared of falling in loveI feel your touch, and it wakes me up
Its not enough, just to have you this way
I wont be gone, hear what I sayI couldnt bare, see you walk away
Want you so bad, want so bad, deep in my heart
I wanna try, just dont know how to start
