

I've Seen It All (feat. Schiller)

[Sarah Brightman](#)

(With Schiller) Self fulfilling prophecies
Strangers stealing someone else's dream I've seen it all
Fighting for my dignity
Running for your life in times like these I've seen it all
I remember the time
Once in a life, you hold me
Got you here in my head,
Here in my head, here in my hand for safety... I've seen it all...
seen it all
I've seen it all...
seen it all
I've seen it all... Waiting on a bed of nails
Time is running slow until it ends
I've seen it all
Fighting for my dignity
Running for your life in times like these I've seen it all
I remember the time
Once in a life, you hold me
Got you here in my head,
Here in my head, here in my hand for safety... I've seen it all...
seen it all
I've seen it all...
seen it all
I've seen it all... Like I've never seen before
Catching up a smile instead of frown
Asking you to never let me down
It will never be the same forever
