

# Now (feat. Kj Hines)

Jackie Venson

Breathe just breathe  
Be happy  
I don't want to see what lies ahead for me  
I don't want to be in any time or place but now  
Time leaves us behind so many people are afraid  
Get lost inside of me I'll take you to a higher place  
There's only now The past is the history  
And tomorrow is a mystery  
So why should I live in misery  
You see right now is a gift to me we'll call it the present  
Heaven is all a state of mind but it's hard to see it  
When you walk around blind  
Bandana on your eyes, they spin you in a circle 'til you hit the pinata and maybe you'll get a prize  
Misleading education that's why I'm so impatient  
I still believe in racists and different situations  
I try to be complacent I practice meditation and feelin' vibrations and just focus on the now  
They say K you need to calm down so I smoke a little weed and just sit up in the clouds  
Conversatin' with Jacquelyn about time and space  
Makes me wonder why we're here in the first place  
And now I'm in awe and I'm questioning God  
Maybe my perception of the spirit really is a fraud  
But I can't be mad what the preacher preach  
He just tryin' to give us peace  
So I sing the symphony singing Jesus glory be!  
And maybe one day we can fly to Jupiter and expand our minds and stop growin' stupider  
'Cos I done had it with time  
I don't want to know what's next so from here on I'll focus on the now Breathe just breathe  
Be carefree  
I don't want to see what lies ahead for me  
I don't want to be in any time or place but now  
Time leaves us behind so many people are afraid  
Get lost inside of me I'll take you to a higher place  
There's only now Lost in the moment I'm lost in the moment  
So where are we going? I'm like I don't know  
I've seen the past and I've seen the future but my teacher told me to let it go  
So I can grow  
Like a seed I form into a tree of knowledge simply by lettin' things be  
And if I need some kind of guide or help  
I'll learn to get in tune with my higher self while in the now Live right now or be swallowed whole

Live right now or lose your soul  
Live right now or be swallowed whole You and I could be in love  
You and I could go beyond and above  
You and I could be in love Live right now or be swallowed whole  
Live right now or lose your soul  
Live right now or be swallowed whole You and I could be in love  
You and I could go beyond and above  
You and I could be in love
