

Entombed

Deftones

From the day you arrived
I've remained by your side
In chains, entombed.
Placed inside, safe and sound
Shapes and colors are all I see. On the day you arrived
I became your device
to lay and soothe.
Placed inside, safe and sound
Shapes and colors are all I see
Shades of colors are all I feel. From the day you arrive
I'll stay by your side.
Placed inside, safe and sound
Shapes of colors are all I see
Shapes of colors are all I feel Placed inside, safe inside
Shades of colors are all I see
Safe inside
