Don't Say Goodbye

Third Day

Look outside the autumn leaves are falling
Deep inside you hear the road is calling
And I know you want to walk away
Leave it all behind, running from nothing
Chasing lies can find you tired and jaded
In your world the colors have all faded
If you think that you can find a place
To get away from the pain, you're looking for nothing
I hate to see you leave without a fight
Time will open doors for you
Wishes spent make dreams come true
I promise I'll be there, don't say goodbye
Time will open doors for you
Wishes spent make dreams come true
I promise I'll be there, don't say goodbye
Take my hand, let's walk a while together
Holding hands won't make it last forever
But I know you probably need someone
To help you work it out, you've gotta do something
And I hate to see you leave without a fight

Time will open doors for you
Wishes spent make dreams come true
I promise I'll be there, don't say goodbye
Time will open doors for you
Wishes spent make dreams come true
I promise I'll be there, don't say goodbye, yeah
Time will open doors for you
Wishes spent make dreams come true
I promise I'll be there, don't say goodbye
Time will open doors for you
Wishes spent make dreams come true
I promise I'll be there, don't say goodbye
Oh, time will open doors for you
Wishes spent make dreams come true
I promise I'll be there, don't say goodbye
Oh well, time will open doors for you
Wishes spent make dreams come true now
I promise I'll be there, don't say goodbye
