

N.O.T.

Incognito

No this is not an ordinary thing to me
Its scandalous to see how much youve changed
Where is the friend? The one that I once used to know
Youre talking to me crazy
As though you never knew me I guess its time to let you know
That I have got to let you go No this is not
The lovin that I use to know
This is not the feelin that I couldnt let go
No this is not
The lovin that I use to know
This is not the feelin that I couldnt let go N.O.T. (Repeat 4 times) No ordinary thing
In my life
(Repeat) Well bless my soul, what kind of a fool dyou take me for
I gave you everything that love can bring
You spun me round until my world came tumblin down
I know this double dealin
I something I can do without I guess its time to let you know
Yes I think that you should go
